## ABOUT ME

Passionate software developer focused on backend technologies and cloud architecture. Proactive learner committed to staying current with latest tech trends to deliver high-quality solutions.

## EXPERIENCE

Since 10/2025  
Full-time

### Backend Developer

Vivicta

Leading backend development using modern .NET stack and Azure cloud services. Designing and implementing scalable event-driven architectures with Azure Service Bus, Functions, and Storage. Responsible for maintaining CI/CD pipelines ensuring reliable deployment and code quality.

.NET | C# | Azure | Docker | Git | SQL | Azure DevOps

10/2023 - 10/2025  
Full-time

### Software Developer

TietoEvry

Focused on backend development with .NET technologies. Utilized Azure cloud integration services including IoT Hub and Functions to build responsive distributed systems. Managed data persistence and containerized application deployment.

.NET | ASP.NET | Azure | Docker | Git | SQL | CI/CD

11/2022 - 1/2023  
Internship

### Junior Software Engineer

Profig

Collaborated on Python-based cloud projects, focusing on test automation and serverless deployment on GCP. Gained hands-on experience with Docker, CI/CD pipelines and Linux environments.

Python | Cypress | GCP | Serverless | Docker | CI/CD | Linux

6/2018 & 5/2019

### IT Technician

CompTech Servis s.r.o

Provided technical support, hardware configuration, and network troubleshooting. Responsible for setting up systems and performing hardware repairs.

Windows | Hardware | Networking | Troubleshooting

## EDUCATION

Since 2024

### Applied Information Science

OSU - University of Ostrava

Master's degree focused on practical application of information science and advanced IT trends.

C# | .NET | SQL | LLM

2020 - 2024

### Computer Science

VSB - Technical University of Ostrava

Bachelor's degree providing profound expertise in software development principles, databases and OOP.

C# | Python | JavaScript | SQL | OOP | Web development

## SKILLS

**Programming Languages:** C#, .NET, Python, SQL

**Databases:** MS SQL, PostgreSQL, MongoDB

**Software Testing:** xUnit, Cypress, Selenium

**Cloud Platforms:** Azure, GCP

**DevOps & Tools:** Docker, Git, CI/CD

**Web Technologies:** HTML, CSS, JavaScript

## HOBBIES

Active hiker and cyclist with a passion

for travel and exploring new cultures.

Keen interest in music and technology,

constantly staying current with latest

trends in software development.
